

# Main Idea Scenario

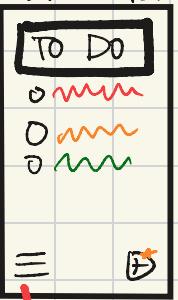

Main menu opens  
to new or last used list

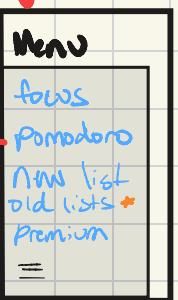

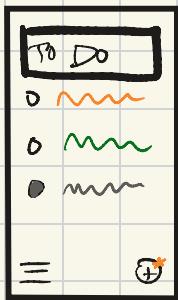

task adding with  
optional info: urgency, duration  
with 3 colors

AI ranks To Do  
based on invited urgency, deadline  
and time needed  
to complete task

5 tasks  
Max in free  
version

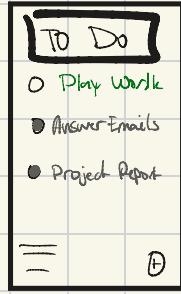

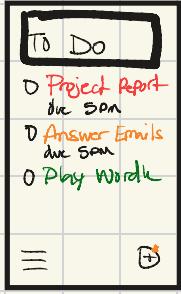

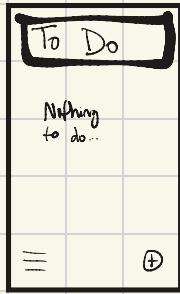

Completed task marks  
as gray unless user pressed  
⊗ on timer screen. Would  
return to 3rd panel if ⊗

timer switches  
between to do and  
break times in 15 m  
intervals until user  
clicks finished or ⊗

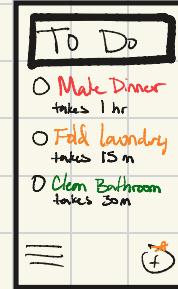

Menu opens to  
additional features  
⊗ denotes Premium

# Scenario: Adult Using at work and home

Options not entered won't show up. Money ranked low if options aren't entered.

Tasks marked off in order of completion. Tasks w/o start remain not urgent.

User wants to reference old chores list

Still utilizes user input to help order tasks, but puts shorter task before longer ones

# Scenario: Student Using for coursework
